- b)  $\pounds720,000 \ge 2/3 \ge 2\% = \pounds9,600$  annual depreciation on buildings

Upto 31.3.2010 buildings have been depreciated for ten years:  $\pounds 96,000 / 9,600 = 10$  years already used.

Hence, the fair value of buildings should be depreciated by  $\pounds 20,000$  i.e  $\pounds 800,000 / 40$  years

£'000

-

a) Revaluation gain: £2,600 (new value) – (£2,100 less £280 ac.Deprn to 1.10.2010) = £780,000

| Annual Deprn. based on historical cost = $2\%$ of $2/3$ rd of £2,100,000 =  |        | 28 | 1 |
|---|--------|----|---|
| Number of years of use of buildings until 1.10.2010 = 280 / 28 per year =   | 10 yrs |    | 1 |
| Number of years remaining : 50 years less 10 years completed =              | 40 yrs |    | 1 |
| Annual depreciation based on fair value = £1,600,000 / 40 years             |        | 40 | 1 |
| Therefore extra depreciation arising because of revaluation ( $40 - 28$ ) = |        | 12 | 1 |
|   |        |    |   |

Therefore annually 12 of the revaluation gain is regarded as realised and transferred to current account

## Accounting for limited companies

## Test 9.1 Accounting for share issue

- **Note:** Although the question states that as at 30<sup>th</sup> June 500 shares were in arrears for the first call, on the premise that those in arrears for the Allotment money (1,000 shares) could not have paid the first call, first call should be in arrears on that date on 1,500 shares.
- a) The Share capital account would report a balance of £80,000 on 30<sup>th</sup> June 2010 and this represents the so far called up value (£8) on 10,000 shares in issue.
- **b)** Section 610 of the Companies Act 2006 permits any balance in the Share premium account to be applied for only:
  - i) writing off the cost of bonus shares and
  - ii) writing off the expenses of and any commission paid on the same shares
- c) Accounts named would appear as follows:

#### Application and allotment account

| ? Cash –refund <sup>b</sup>      | 10,000 | 31.3 Cash account <sup>a</sup> | 40,000 |

- (a) Application money on 16,000 shares (a)  $\pounds 2/50 = \pounds 40,000$
- (b) Refund on 4,000 shares (a)  $f_2/50 = f_{10,000}$
- (c) So far called up value (£11 less £1 premium) less uncalled calls (£3 and £2) on 10,000 shares =£50,000
- (d) Share premium ( $\pounds 11$  par value of  $\pounds 10$ ) receivable along with allotment money.

| (e) Allotment money due on 1,000 shares @3/50 |        |  |  |  |
|---|--------|--|--|--|
| Excess application money on 200 shares @ 2/50 | (£500) |  |  |  |
| Allotment money in arrears                    | £3,000 |  |  |  |

Those who applied for 12 shares received 10 shares, pro rata Accordingly those who received 1,000 shares would have applied for  $1,000 \times 12/10 = 1,200$  shares i.e. 200 more.

(a) 10,000 shares @  $\pounds$ 3 each = $\pounds$ 30,000 (b) 1,500 shares @  $\pounds$ 3 each =  $\pounds$ 4,500
